Mark's Marxism is a contemporary understanding of what socialism and communal living envisioned by Karl Marx and Friedrich Engels. It brings into perspective over 100,000 years of Indigenous cultures living the communal life as illustrated in the Communist Manifesto.

It shows the root cause of capitalism and the safest and best way to reverse it. With a world spinning out of control with a new wave of fascism this commentary is well received at this time.

It also includes reprints of A Reader's Guide to Marxist Classics and The Marxist Glossary.

This companion book embraces what Marx and Engels envisioned and is quite a necessary read in this time and age.
